Assistant Commissioner Responds to Allegations *SLW Front Office Accepting Applications for New Position*

Colorado Springs, Colo. – Assistant Commissioner for Communications, Jeff Cain, denied any involvement in the recent male prostitution sting and any involvement in the child pornography ring, and the Block Station police have since apologized to Assistant Commissioner Cain and to the entire Shangri' La community and to his wiffleball fans throughout southern Champaign County. "We got the wrong guy," stated Block Station Police Chief Jeff Kirby, "I apologize to Tank and to his family and friends."

Police Chief Kirby went onto say that they apprehended the correct male whore and child porn pervert shortly after 12:19 PM Friday. Details are sketchy at this time but it is clear that they arrested a white male, named Aaron Alblinger. At the time of his apprehension he was armed with only a B.B. gun and was holding a Mr. Hasler hostage. Reports state he was not going to release Mr. Hasler until his demands were met. No word yet on if those demands were met but somehow they must have since Alblinger is in custody now.

In other news, the Shangri La Front Office is announcing the creation of a front office position. The Director of Propaganda will answer only to Commissioner Hixson and will give key input on the future of Lake Front Stadium. Salary will be \$0 and benefits include fighting the good fight and being in the know. Applicants must submit a resume along with any references by 5:00PM MT this afternoon (5/5). Geoff Hixson and Spence Hasler need not apply.

This position is being created to fill a critical need in preparation for the looming war that is bound to take place over Lake Front Stadium. "If war is what they want, then war is what they will get," Hixson stated responding to the latest release from the SLWAA. "We will utilize the coalition of the willing (those who support the renovation) and crush the opposition. Many of you remember my Shock and Awe campaign of 2002, and I assure you this will be ten times more effective."
