Shangri La' Lake on the Rise

Owners on the Low Part of the Lake Put on Alert

Colorado Springs, Colo. – The SLW Front Office received word this morning that the torrential rain in East Central Illinois is again threatening Shangri La' Club. Early reports indicate the lake is up 4" at this time. Rain events are forecasted at a high percentage for all of Wednesday.

"A lot of time, effort and money to recover from the last flood have already been invested," Hixson said. "Another flood would be devastating. The house is currently nearing completion. Hopefully, we can catch a break on weather this time."

More information will be provided as it becomes available.
